

CHOOSE A BAY-FRIENDLY LANDSCAPER!

Bay-Friendly Landscaping is a holistic – sustainable - approach to landscaping that fosters soil health and conserves water and other valuable resources while reducing waste and preventing pollution.

Since April 2008, professional landscapers serving Marin clients graduated from a 20-hour “Bay Friendly Landscape Maintenance Training and Certificate Program” sponsored by Marin County Stormwater Pollution Prevention Program and Marin Municipal Water District in cooperation with the Marin Art and Garden Center.

These landscapers can help ensure a sustainable landscape that protects our creeks, ocean and San Francisco Bay!
