
Managing Rats and Mice the Less-Toxic Way

This half-day workshop will focus on practical, effective, and less-toxic methods for managing roof rats, norway rats, and house mice using integrated pest management (IPM) techniques.

Date: November 29, 2006

Time: 8:15 a.m. to 1:30 p.m.

Location: Marin County Civic Center, Room 266 (OES)

Lunch Provided

CEU Credits: 4 hrs DPR (pending), 3 hrs SPCB (pending)

Workshop topics include:

- * The biology and behavioral ecology of roof rats, Norway rats, and house mice
- * Basic population dynamics of rodents
- * How biology and population dynamics affect management
- * Effective habitat modification
- * Effective biological, horticultural, mechanical, and chemical interventions
- * A Group exercise to gain more insight into evaluating management alternatives for a particular site
