

Marin County Department of Public Works and Marin County Open Space District invite you to attend a free workshop on

Fish-Friendly Road Repair and Maintenance

This **FREE** workshop will focus on practical and effective methods for controlling erosion on private property – and keeping sediment from adversely impacting creeks and aquatic life.

Saturday, June 9, 2007

8:30 am – 4:00 pm

Woodacre Improvement Club – 1 Garden Way, Woodacre
LUNCH PROVIDED

You will learn how to:

- Properly design and manage unpaved roads
- Decrease the maintenance needed on unpaved roads
- Share the cost for improving roads and get funding assistance
- Find out if your roads are contributing to erosion problems
- Determine if your road is contributing sediment to creeks that support Coho salmon and steelhead trout

Photo by Reuven Walder, SPAWN

Morning session (8:30 to 11:30): Learn about road issues through a slide show and classroom presentation.

Afternoon session (Noon to 4): Enjoy a visual learning experience as we carpool to visit sites that demonstrate the recommendations for road improvements learned in the morning session. ***Wear sturdy shoes!***

About the Trainer: Danny Hagans of Pacific Watershed Associates (PWA) is co-author of "Handbook for Forest and Ranch Roads." PWA has over 20 years of experience in road assessment and sediment reduction work.

REGISTRATION REQUIRED – SPACE IS LIMITED TO 50 PERSONS!

Please complete the registration below and return to: Ruth Pratt, Marin County Department of Public Works, P.O. Box 4186, San Rafael 94913-4186 You may also FAX to 415-499-3799 or E-MAIL rpratt@co.marin.ca.us For more information, call 415-499-7579.
